

As a certified provider of global field services with offices in Germany, Italy and the UK, our focus is on conducting national and worldwide CATI, CAWI and mixed-mode surveys.

With our CATI@home approach, we are also in a position to conduct multi-country studies with large case numbers in both the B2B and B2C sectors within an appropriate time frame.

Our portfolio is rounded out by online in-depth interviews (IDIs) and focus groups, as well as metaverse interviews and social media recruitment.
